

# PUBLIC SERVICE ANNOUNCEMENT

Students really enjoyed learning about Public Service Announcements. By using their knowledge, different types of PSA's and discussing how these can be used to people's advantage. Our class decided they wanted to make a fun and exciting movie video to teach other students about the dangers of zebra mussels and other aquatic invasive species.

## The Zebra Mussel Tussle

**THIS IS A PUBLIC SERVICE ANNOUNCEMENT**

This movie is part of the educational video series "Zebra Mussels: The Tussle". It is a fun and informative way to learn about the dangers of zebra mussels and other aquatic invasive species. The video is designed to be shown in schools and other public places to help educate people about the problem.

When you see a zebra mussel, please report it to the appropriate authorities. This will help them to take action to prevent the spread of the species. Remember, it's everyone's responsibility to keep our waterways clean and healthy.

For more information, visit the website [www.zebramussels.org](http://www.zebramussels.org). We hope you enjoyed this PSA and that it helped you to learn more about zebra mussels.

## The PSA Boys

# SPREADING THE WORD ABOUT AQUATIC INVASIVE SPECIES

## ...One Letter at a Time

The students collected all their suggestions by having letters to the editor about what they have learned. They collected about 100 letters to the editor about zebra mussels, quagga mussels, and other aquatic invasive species. They are all being typed up and will be placed in the "One Letter at a Time" display. We hope that the letters help spread knowledge and the truth about the dangers of aquatic invasive species.
