Adopting a Classroom Animal

Care Sheet

To provide the best care for the animal:

- Make sure it is legal. Some organisms, especially those available through the internet, may not be allowed in your state*;

- Make sure the animal will be happy living in your classroom or home before adopting it. (For example, are the needs and behavior of the animal well-matched with student or family health needs, student age and maturity, school policy, possible allergies and work schedule?);

- Provide food, water, and space of sufficient quantity and quality to support normal growth, exercise, healing, or maintenance of body weight;

- Provide confinement that prevents escape and provides an area free of excess food, fecal waste, or other contaminants that could harm the animal;

- Provide shelter from unfavorable conditions, predators, and injury; and

- Develop a plan for future care or disposition of the animal if it can no longer be cared for.

  - You may be able to return the animal to the point of purchase or donate to a pet store, university, or zoo;
  
  - Find the animal a home with a friend or another classroom. (Make sure they take this pledge first!); or
  
  - If you cannot find a new home for your animal and you want to consider euthanasia as an option, consult with a veterinarian.
